CODE OF ETHICS

PART II

1. The provisions of this part apply to entries of a breed regulated by a breed association which has adopted this part.
2. If intended for use in contravention of the Code of Ethics, no exhibitor and no agent, employee or other person acting on behalf of an exhibitor, shall have in his or her possession or control any hypodermic syringe, needle or other device; swabs, cloths, or other material, or any medicine, preparation or substance, whether in liquid or any other form.
3. Exhibitors will not be allowed to wrap hocks or drain fluid from hocks at a show.
4. All entries and the personal property of all exhibitors, their servants and agents and persons acting on behalf of exhibitors, are subject to inspection by inspectors authorized by a show. All such persons shall co-operate with the inspectors and shall provide all such information in connection with such inspections and shall provide access to the animal and all information reasonably required by inspectors in connection with such inspections and shall provide, if so requested, samples of urine and blood suitable for analysis. Exhibitors shall also remove any udder supports, blankets or other objects limiting the ability of the inspector to undertake a thorough inspection. In particular, the inspectors shall be informed, in advance, of the nature of any medicine, treatment or substance administered to any entry and the reasons therefore.

Inspections under this paragraph may be carried out at any time while the animal is at the show and elsewhere in the period ending 30 days after the termination of the show between the hours of 6:00 a.m. and 8:00 p.m.

5. Any inspector may, at any time, require the delivery to him of any hypodermic syringe, needle or other device, swabs, cloths or other material, or samples of any medicine, preparation or substance whether in liquid or other form in the possession or control of the exhibitor, his servants, agents, or persons acting on behalf of the exhibitor for the purposes of laboratory analysis.

6. A. Subject to the provisions of subparagraph 5.(b), the following entries are disqualified and shall not participate further in the Fair in which the entry is disqualified.

(1) Any animal determined by an inspector (who is a veterinarian) to have an udder manifesting any of the following: localized swelling, oedema, erythema, sensitivity, reddening, firmness, warmth of exfoliation of the skin, but excluding general oedema associated with parturition or mastitis, or a sore in the area where the large blood vessels enter the udder.

(2) Any animal entered by an exhibitor who, or whose servants, agents or persons acting on behalf of the exhibitor, fails to co-operate in the inspections provided for under paragraphs 3 and 4.

(B) The inspector's determination pursuant to subparagraph 5.(a)(1) is subject to an appeal by the exhibitor to the appeal committee appointed by the Executive Committee for the purpose. Any such appeal must be made by notice in writing delivered to either the General Manager or General Superintendent within one hour.

In keeping with the basic philosophy of the Fair Association, ethics are an individual responsibility. However, it should be understood that violators are subject to the disciplinary provisions of their breed Association's Rules and Regulations.
